PROJECTS

Hairstylist Network
WWW.PRIVYCHIC.COM

*ReactJS, Express, Massive, PostgreSQL, Node.js

HairStylist networking site that allows the stylist and client to connect, enabling a client to locate, schedule and view the stylists portfolio before booking an appointment.

- Built from zero through the course of three weeks
- Utilized Redux to keep track of user information across views
- Employed Stripe to enable payments between Stylist and Client
- User authentication with bcrypt.js

Developer Roadmap
WWW.DEV-ROADMAP.INFO

*React, Node.js, PostgreSQL, Express

This application is built for graduates of DevMountain. Built on the premise of providing aid to grads for a successful career in Web development. Our roadmap helps students manage their time while also providing resources to keep them on track towards success.Bcrypt for user authentication.- Styled-components for design.- Drag and drop functionality.

- Bcrypt for user authentication.
- Styled-components for design.
- Redux for state management.
